

Small railroad, large scope

MSE interchanges with four Class 1 railroads and one deepwater port, allowing customers competitively priced access to all of North America as well as international locations.

NORTH TO BN AND UP IN MEMPHIS, STRAIGHT NORTH TO CANADA, WEST CPKC AND MEXICO

MSE interchanges with CPKC in Jackson, MS. CPKC directly accesses mid-west U.S. and Mexico.

For products moving to and from Canada or the West Coast, CN extends from Jackson to Memphis where it interchanges with Burlington Northern Santa Fe and Union Pacific, and continues to Canada.

JACKSON, MS

HATTIESBURG, MS

MOSS POINT FACILITIES AND EAST PASCAGOULA RIVER

Moss Point is home to MSE's main office which includes the Britt Railcar Repair Shop, Helena Industrial Complex, Helena Transloading Site and East Pascagoula River Barge Facility. The Helena Industrial Complex is home to AirGas Inc., Tindall Corporation, MSE's 125 acre Project Ready Site, and Heniff Transportation Systems.

EAST TO NS

MSE has one of its two interchanges with Norfolk Southern Railroad in Hattiesburg, MS via its haulage agreement with CN.

EVANSTON, MS INTERCHANGE AND FACILITIES

MSE interchanges with Canadian National in Evanston, MS. MSE's South Mississippi Industrial Complex is located close to the interchange and is the home to American Tank and Vessel, TriState Pole and Piling, Vulcan Materials, and Enviva Biomass. This site has been certified through Mississippi Power's Project Ready and has 353 certified acres available.

MOSS POINT, MS

MOBILE, AL

CSX INTERCHANGE AND PORT OF PASCAGOULA

MSE interchanges with CSX in Pascagoula, MS and accesses the Port of Pascagoula per agreement with CSX. The Gulf Coast corridor of CSX provides direct access to New Orleans, LA with connections to western railroads BN, CPKC, and UP.

INCREASE FLOW THROUGH MOBILE

MSE connects to the Port of Mobile, AL and is the second interchange with Norfolk Southern Railroad. Given MSE's close proximity to the container facilities in Mobile, its shovel ready industrial sites and transloading services provide a congestion solution for freight moving through Mobile.

Transportation solutions

MSE is poised to provide all first mile/last mile transportation solutions for Gulf Coast rail shippers and receivers.
