ITEM 1 REFERENCE TO TARIFFS, ITEMS, NOTES, RULES, ETC.

Thank you for partnering with ALE for your freight and logistics needs. Our tariff is published on our website at www.alerr.com. It is recommended that all Customers shipping with ALE review all publications posted on the website before tendering freight to or from ALE as revisions to the publication may be made from time to time.

ITEM 2 CURRENCY

All charges published herein are in United States Dollars.

ITEM 3 CHARGES AND CONDITIONS HEREIN SUBJECT TO CHANGE

Charges and conditions published herein are subject to change with 30 days' notice. Tariff is published on our website, and it is the customer's responsibility to visit our website and tariff for changes/modifications.

ITEM 4 TRANSPORTATION

ALE agrees to transport shipments with reasonable dispatch. ALE does not guarantee rail service within any time frame. Bunching and Run Around will not be considered railroad error and no allowance will be made.

ITEM 5 ALE INTERCHANGES

- Mobile, AL – BNSF, CN, AGR, CGR, CSXT, NS, TASD

ITEM 6 GLOSSARY OF TERMS

ACCESS RIGHT: When a Customer orders or accepts a shipment, they represent that they own or have the right to grant ALE access to the sidetrack(s) and property leading to and within the Customer facility. This allows ALE to proceed unimpeded over sidetracks.

- ALE will use the sidetrack(s) to deliver any car directed to the Customer's facility by a valid Shipping Instruction

ACTUAL PLACEMENT: When a car is placed in an accessible position for loading or unloading, or at a point designated by the shipper or consignee or party loading or unloading the car, railroad may issue Actual Placement Notices. Failure to receive notification is not a valid claim against payment of invoices for associated fees. Actual Placement is commonly referred to as PACT.

ARMS: Web based interface that allows Customers to view their online inventory, request cars to be spotted or released, reject cars, load or empty cars, and bill cars. Contact ALE Customer Service with questions at (228) 474-0711 or email customerservice@mserr.com.

ASSIGNED CARS: The assignment of cars to a given shipper at a specific location as defined in Car Service Rule 16 and Car Hire Rule 22 as published in AAR Circular No. OT-10.

ASSIGNEE: A shipper who has requested and has been assigned specific cars.

BILL OF LADING: Uniform Bill of Lading as contained in the Uniform Freight Classification UFC 6000 Series, subject to modification as may occur from time to time. Commonly referred to as BOL.

BROKER: An agent or intermediary negotiating the buying or selling contents of car, other than shipper or consignee.

BUNCHING: The accumulation of cars for loading or unloading shipped on different days. Since ALE does not control the flow of inbound cars from connecting railroads, no allowance will be made in demurrage charges.

CALENDAR MONTH: Defined as 12:01 a.m. from the first day of one calendar month through 12:00 a.m. on the first day of the following calendar month.

CALENDAR YEAR: Defined as 12:01 a.m. on January 1 of current calendar year to 12:00 a.m. January 1 of the following calendar year.

CAR HELD AT CUSTOMER REQUEST: Demurrage and/or Storage charges may apply to cars held at a customer's request or due to a condition cause by a customer such as cars released but not available to pull, overloaded cars, holding cars short of interchange and/or destination, empty cars ordered and not used, refused or rejected cars, or cars held for diversion or reconsignment.

CAR ORDER WANT DATE: The date for which Customer requested car for loading. Customer enters request through RailConnect Visibility and Planning (RVP) twenty-four (24) hours in advance of the day they are serviced.

CHERRY PICKING: A Customer requested release instruction for cars to be pulled by specific initial and number. An alternative to Cherry Picking is to release cars that are in a block and/or most accessible.

CLOSED GATE: A Customer facility is considered 'Closed Gate' with regards to cars that will remain in any ALE serving yard until the Customer provides specific placement instruction to ALE via Cedar AI. A customer facility may be **Closed Gate** for some commodities or cars and **Open Gate** for other commodities or cars.

CONSIGNEE: The party designated on the Bill of Lading as the entity entitled to receive delivery of the car.

CONSIGNOR OR SHIPPER: The party designated on the Bill of Lading as the entity which has caused the car to be consigned into transportation.

CONSTRUCTIVE PLACEMENT: When a car cannot be actually placed or delivered because of any condition attributable to the consignee, shipper, loader or unloader. If this occurs, Customer will be notified of its placement.

CONSTRUCTIVE PLACEMENT TIME: The time from constructive placement until a car is actually placed.

CUSTOMER: Shipper, loader, unloader, consignee, freight payer or party entitled to receive notification.

DEDICATED RAILWAY LOCOMOTIVE POWER OR DEDICATED CREW: When a locomotive(s) and crews have been assigned specifically for that unit train service, and that ALE is providing the locomotive(s) and crew for loading and/or unloading.

DELAY OF TRAIN: In the event a railroad train and/or engine and crew are unable to perform a scheduled or unscheduled service, or work is impeded, due to causes attributable to a customer or agent, an hourly charge may be assessed.

DEMURRAGE: Demurrage is a charge for detaining a car. ALE charges demurrage as an incentive for Customers to load and unload cars promptly, to prevent congestion in railroad terminals caused by idle cars, and ultimately to improve the utilization. Reduced dwell translates into faster, more reliable cycle times and better service.

Demurrage is charged on Railroad or Railroad Industry controlled equipment while the car is physically on the railroad, whether it is located on ALE owned or Industry owned property.

Demurrage is charged on private equipment while it is physically on the railroad and located on ALE owned property.

DEMURRAGE BILLING PERIOD: Charges are billed monthly.

DEMURRAGE FREE TIME: The time allowed for the unloading or loading of cars that is not chargeable. Free Time will consist of twenty-four (24) hours for both loading and unloading. Free Time is the first twenty-four (24) hour period, computed from the first 12:01 a.m. after actual or constructive placement, whichever comes first. Saturdays, Sundays, and Holidays are considered non-chargeable days unless the free time on the car has already expired. If the customer is in chargeable days, then all subsequent Saturday, Sundays and Holidays are chargeable. A Saturday, Sunday or Holiday cannot be the first chargeable day. Demurrage charges are net of Free Time.

DESTINATION: Destination as stated on the Bill of Lading

DISPOSITION: Information, including forwarding instructions and/or release, which allows the railroad to apply or release the car from the shipper's, consignee's, loader's, or unloader's account.

DIVERSION: The term "Diversion" can be used interchangeably with "Reconsignment" and means any request for change in the Bill of Lading or Waybill. A diversion is an order from the shipper or consignee to deliver car(s) to other than the original billed destination. If change requires the car to move over track that it has already traveled (back haul), the car may be diverted to the next logical terminal. From there, new shipping instructions (new Bill of Lading) will be required to move the car from its current location to the new destination.

EMPTY CARS ORDERED AND NOT USED: Empty cars ordered, placed or constructively placed for loading and not used in transportation service.

EMPTY RELEASE INFORMATION: Advice from consignee and/or unloader, given to the ALE Customer

Service Department electronically via ARMS, or via email that car is unloaded and available for the ALE. Information given must include identity of consignee, and/or unloader, party furnishing the data, car initial, number date and time. Release will be effective on the date and time advice is received by ALE.

FORWARDING INSTRUCTIONS: A Bill of Lading given to authorized personnel of the line haul carrier that contains all necessary information which allows for the immediate movement by ALE.

Forwarding instructions will be effective on date and time advice is received by ALE.

- Advice received by ALE to move a car from a loading or storage track to a railroad yard or hold track to be held for "forwarding instructions", whether furnished by the party loading car or another party, or a Bill of Lading or an order consigning the car to an Agent of ALE which has no beneficial interest in the lading, does not constitute "forwarding instructions" or a release from demurrage or other like charges.
- A Bill of Lading, or other suitable order, covering car(s) requiring clearance from all carriers in the routing will not constitute "forwarding instructions" until clearance is received from all carriers in the routing.

HAZARDOUS COMMODITY, HAZARDOUS MATERIAL OR HAZMAT: Dangerous Goods/Hazardous Materials means any commodity listed in any or all of the following: The Canadian Transportation of Dangerous Goods Act and Regulations; Title 49 CFR of the United States Code of Federal Regulations; The International Maritime Dangerous Goods Code (IMDG); Class A, B, and C explosives named in Part 172 commodity list; Tariff BOE 6000 series; all hazardous materials requiring the use of four-digit identification numbers on the shipping document, placards or panels as named in Section 172.101, Tariff BOE 6000 series; all bulk shipments, or shipments in containers which exceed 110-gallon capacity of hazardous materials, substances or wastes, as described in the Directory of Hazardous Materials Shipping Instructions.

IDLER or BUFFER CAR: An empty car used to protect overhanging loads or used between cars loaded with extended length material. The use of idler or buffer cars may be subject to a per-car fee, unless otherwise stated.

IMPROPERLY LOADED CAR: One that has an improperly secured load, an uneven or unbalanced load, a load that has shifted or a car not containing dangerous goods or hazardous materials found to be leaking.

INDUSTRIAL TRACK: Designated delivery or receipt track or tracks for the exchange of cars between carrier and industry performing their own switching including switch line acting as Agent for Industry. Also, any track assigned for individual and/or business use, including privately owned or leased track.

INDUSTRY TIME: The time from actual placement or placement to team tracks until release and receipt of forwarding instructions, if applicable. The time from interchange receipt of a loaded car or a loaded private car released and held on railroad-controlled tracks until forwarding instructions are received.

INTRA-PLANT SWITCHING: A Customer requested switching movement subsequent to Actual Placement, when loaded or empty, from one track to another track (or between two points on the same track), within the same plant or industry without leaving the tracks of the same plant or industry.

INTRA-TERMINAL SWITCHING: A Customer requested switching movement (other than intra-plant switching) from one track to another track of the same carrier, within the switching limits of one station or industrial switching district.

INTER-TERMINAL SWITCHING: A switching movement (other than intra-plant and intra-terminal switching) between an industrial track or team track on the tracks of ALE and an industrial track or team track on connecting lines on traffic having origin and destination within the switching limits of the same station or industrial switching district. Charges of connecting carriers will be in addition to charges provided herein. Commonly referred to as a Cross Town Switch.

INTERMEDIATE SWITCHING: A switching movement by a carrier that neither originates nor terminates the shipment nor receives a line haul on that shipment.

LATE DELIVERY SHIPPING INSTRUCTIONS: Shippers must supply accurate and timely shipping instructions. If an empty or loaded car moves to an ALE yard or to interchange without complete Shipping Instructions, a late fee may be assessed.

LEAKING CARS: Cars carrying dangerous goods/hazardous materials or cars containing residue of dangerous goods/hazardous materials found to be leaking or unsafe to move forward.

LEASED TRACK: A track leased to a user through a written lease agreement and is considered the same as a private track for demurrage or storage purposes.

LINE-HAUL: Movement between stations that are not located within the switching limits of the same station. Movement between stations located within the switching limits of the same station will be considered line haul when Customer is not listed as open to reciprocal switching or when movement occurs from or to a leased track.

LOADER: Party physically loading the car.

LOADING: The complete or partial loading of a car in conformity with ALE loading and clearance rules, advice that the car is available for movement, and the furnishing of forwarding instructions.

LOCAL: Traffic moving between stations located on ALE.

MANUAL RELEASE OR SHIPMENT ENTRY: If a customer requests ALE to input billing information (including any changes, modifications, revisions to submitted billing) or submit an empty car release, each car (bill of lading or empty release) is subject to a fee. ALE reserves the right to reject any unreasonable request for service, any fax or email forwarding instructions that are illegible, whether due to poor transmission quality, illegible handwriting or otherwise.

NON-COMPLIANT CARS: Cars carrying dangerous goods/hazardous materials, whether loaded or carrying only residue amounts, that are found not to comply with all applicable safety standards or requirements or to otherwise be improperly prepared for transport or deems unsafe by regulators. Non-compliance examples: secondary means of closure, such as shipping plugs, loose swing bolts on manways, safety chains and improper marking, other than placards lost in transit from the pickup location.

NON-REVENUE EMPTY CAR(S): Empty private cars will be handled without charge if the empty line-haul

movement is immediately preceded by a revenue line-haul movement on the same ALE line within the previous One Hundred and Eighty (180) days; otherwise, the empty movement will be subject to applicable charges.

NOTIFICATION: When required, notification will be furnished either electronically or in writing to all parties entitled to receive notification.

OPEN GATE: A Customer facility is considered 'Open Gate' with regards to cars that ALE will deliver upon determining that the facility has space to receive the car. No specific placement instruction will be accepted for Open Gate cars. A Customer facility may be **Open Gate** for some commodities or cars and **Closed Gate** for other commodities or cars.

ORDER IN: In order for a car on constructive placement to be spotted at a Customer's facility, the party entitled to receive the car must order the car for placement.

ORDER IN CUSTOMER: A Customer who, by prior arrangement, has notified ALE that cars shall not be placed, or considered to be placed, for loading or unloading, until ALE has received an order for placement from said Customer.

ORIGIN: The location at which a shipment begins.

OVERLOADED CARS: A car is considered overloaded when it exceeds the car weight or track weight limits related to the route that the shipment will take.

PARTIAL UNLOADING: The partial unloading of a car and the furnishing of forwarding instructions.

PRIVATE CAR(S): A car bearing marks other than railroad reporting marks that is not railroad controlled.

PRIVATE TRACK: Track located outside a carrier's right-of-way, yard, or terminal when the carrier does not own the rails, ties, roadbed or right-of-way.

CAR DAMAGES: Upon inspection, if a railroad-supplied car requires repairs due to damage attributable from loading or unloading, other than usual wear and tear.

RAILROAD CONTROLLED CAR: Any car other than a private car.

RAILROAD PROPERTY: No one outside of approved employees and contractors, including Customers, is allowed to enter, perform any switching, or otherwise access or operate on any tracks owned by ALE. If anyone accesses ALE Property, they assume all risk of loss and indemnifies ALE against all damage, cost, liability, judgement, and expense, including attorney's fees, in connections with any personal injury or death of any persons or loss of/damage to any property, whether employees or property of either Customer, ALE, or third persons, sustained, incurred, arising, or growing out of operations by Customer or its Agents upon ALE Property. Anyone needing to access ALE property must contact Customer Service at customerservice@mserr.com and provide details and to when and why access is needed. Before being allowed on ALE property, a Release to Access Property will need to be executed.

RECIPROCAL SWITCHING: An arrangement between railroads serving the same station or switching district where the railroad physically serving the customer performs switching service for loading or

unloading on behalf of the line haul railroad on shipments having an immediately preceding or following line-haul movement via that railroad.

RECREWING: When a customer's actions result in ALE having to recrew a unit train.

REFUSED LOADED CAR: An original loaded car refused at destination without being unloaded.

RELEASE: The notification received from shipper, loader, consignee, or unloader that loading or unloading of a car has been completed and car is available for movement and forwarding instructions have been received, if applicable. Date and time that ALE receives forwarding instructions and advice that a car is available for movement and from non-credit Customers, upon payment of any charge due. Cars placed on industrial interchange tracks of an industry doing its own switching, including those tracks of an industrial switch line acting as Agent of industry, will be removed from track and considered received and held for disposition as provided in this Tariff. Cars found to be improperly loaded at origin will not be considered released until the load has been properly adjusted and clearance has been obtained. When a car is unloaded and then reloaded, empty release information must be furnished. If not furnished, demurrage will be continuous until forwarding instructions are received. Loaded or empty or private cars released and pulled from private tracks, which must first be held on railroad track awaiting forwarding instructions, are subject to demurrage/storage provisions and charges as provided in this Tariff.

NOTE: Demurrage charges will continue to accrue to the Origin Industry even when cars are released to a third-party, until the time the billing is received from the third-party.

RUN AROUND: Car(s) placed at customer designated track(s) ahead of previous arrivals held by the railroad on railroad owned tracks.

SETBACK – RAILROAD: Cars moved onto tracks of ALE by a connecting carrier in error or for purposes other than interchange to or from ALE may be subject to setback charges.

SHIPPER OR CONSIGNOR: The party designated on the Bill of Lading as the entity which has caused the car to be consigned into transportation.

SHIPPING INSTRUCTIONS: A uniform straight Bill of Lading or electronic data interchange packet in a form acceptable to ALE.

SIDETRACK: Privately owned tracks that connect to Customer facilities. Most Customer facilities are accessed via sidetracks. In the absence of a private sidetrack agreement or track lease, the following terms and conditions govern the use of the sidetracks.

SIDETRACK MAINTENANCE: Customers must, at their own expense, inspect, maintain, and renew sidetracks consistent with normal operations, and in accordance with:

- The Federal Railroad Administration's Track Safety Standards (49 C.F.R. Part 213)
- Railroad Worker Safety Regulations (29 C.F.R. Part 214)
- Lease agreements

In addition, Customers must keep sidetracks free from debris [9' from centerline of rail where applicable], weeds, potholes, excavations, ice, snow, temporary or permanent structures and poles, and any other

obstructions (i.e. parked vehicles).

SIDETRACK MONTHLY INSPECTIONS: In order to maintain safe working conditions for ALE and customer employees, The Federal Railroad Administration (“FRA”) Track Safety Standard (49 CFR Part 213) states that all “other than main track” must be inspected by a qualified inspector on a monthly basis with at least twenty (20) calendar days between inspections. Customer tracks are included in this category and must be inspected and maintained according to these standards at their own expense.

Inspections may be completed by a qualified independent contractor or by ALE track inspectors under the terms and fees of a separate, private agreement. If performed by ALE, the customer will receive a copy of the inspection report in compliance with FRA guidelines for their records.

If inspections are performed by a qualified independent contractor (other than ALE) and inspection reports are not filed with ALE in a timely manner, the ALE 9100 “Monthly Sidetrack Inspection” tariff charge will apply.

Monthly inspection reports must be on file with local ALE management for freight service to be provided. Failure to properly inspect and maintain track can result in suspension of service. Failure to file inspection reports to ALE will default to ALE completing the inspections at the then current ALE 9100 “Monthly Sidetrack Inspection” tariff rate.

Periodically, ALE personnel will also inspect customer tracks to ensure they remain compliant with FRA standards. These inspections are done at the discretion of ALE for the safety of its crews and equipment and are not to be deemed an official FRA inspection unless contracted by the customer to act as such.

ALE additionally offers to provide routine maintenance and repair services on customer track. If repairs are deemed necessary after the completion of a monthly inspection, ALE will confirm with customer that customer desires repair to be completed by ALE personnel prior to commencement of work. After authorization is granted, ALE will complete repairs in the most efficient manner possible and submit an itemized invoice to customer for payment.

SPECIAL FREIGHT TRAIN SERVICE: When a switching movement cannot be handled in regular train operations for reasons including, but not limited to, excess dimensions, excess weight, service requested during non-operating hours, unit train service, etc., charges for special handling will apply. This charge will be in addition to any other charge applicable to the movement including, but not limited to, freight charges, fuel surcharge, and demurrage.

Special Freight Train Service charges will be assessed on all power generation shipments (e.g., transformers) unless otherwise approved by the General Manager in writing.

SPECIAL PLACEMENT REQUEST: Any handling and/or placement instructions requested of ALE that are outside of or beyond normal placement requirements. Examples: weighing in transit, uncoupling cars to accommodate spot specific placement, etc.

STOPPED IN TRANSIT: When cars are held in route because of any condition attributable to the shipper, consignee, or owner.

STORAGE: An agreement between ALE and the customer whereby ALE provides track space to store private

railroads on ALE's tracks for a fee.

TENDER: The offer of goods for transportation, or the offer to place cars for loading or unloading.

TIH/PIH: Toxic Inhalation Hazards ("TIH") and Poison Inhalation Hazards ("PIH"), as defined in AAR Circular No. OT-55. The terms TIH and PIH are synonymous as they apply to this Tariff.

TIME: Local time of the station located on ALE is applicable, expressed on the basis of the twenty-four (24) hour clock, commencing at 12:01 AM.

UNIT TRAIN: A physically consecutive and connected set of at least 90 cars with dedicated locomotive power tendered for movement together, unless otherwise stated in your freight contract.

UNLOADER: Party physically unloading the car.

UNLOADING: The complete or partial unloading of a car and notice from the consignee the car is available for movement and the furnishing of forwarding instructions when required.

UNSAFE TO MOVE FORWARD: Overloaded or improperly loaded cars that may cause an accident or a derailment.

ITEM 7 GENERAL LIABILITY

1. There shall be no presumption of ALE's fault for the loss, damage or delay of cargo. The burden of proof to establish the culpability of the ALE is upon the claimant. ALE is not liable for any loss, damage, or delay of cargo, except where ALE's intentional act or omission, gross negligence or simple negligence is the direct or proximate cause of the injury/and or loss. If ALE's act or omission is not the sole cause of the injury and/or loss but contributes to the loss, damage or delay to the cargo, then ALE will be liable only for that portion of the injury and/or loss as corresponds to its comparative culpability.
2. Under no circumstances will ALE be liable for special or consequential damages, including market decline claims, products deterioration, or other such claims based on delay in transportation, nor shall ALE be liable for punitive damages or attorney fees.
3. ALE agrees to transport shipments with reasonable dispatch. ALE does not guarantee rail service within any particular time frame.
4. ALE's will not accept or investigate any claim where the alleged loss or damage is \$1,000 or less per shipment?
5. ALE's maximum liability for cargo is the lowest of (i) its original cost, (ii) the cost of replacement, or (iii) Ten Thousand Dollars and no/100 (\$10,000.00) per car; provided, however, any liability of ALE for damaged cargo shall be reduced by the amount of any net salvage proceeds received by Shipper for such cargo.
6. Failure of the Shipper to comply with packaging requirements of the Uniform Freight

Classification and AAR loading provisions shall be a defense to any claim for damage.

7. Any claim for loss or damage shall be filed within six (6) months of the date the shipment was delivered, or in the case of failure to make delivery, then within six (6) months after a reasonable time for delivery. Any lawsuit or other action for the enforcement or liability for loss or damage must be instituted within one year after the railroad first declines the claim.

ITEM 8 FILING A CLAIM

1. Claims should be reported to Alabama Export Railroad, Inc., Attn: Risk Claims Department, 4519 McInnis Ave., Moss Point, MS 39563.
2. ALE's liability for loss, delay and damages or shortages is contingent on the following:

The claim for loss or damage must be submitted by an entity that is party to the contract or bill of lading (shipping instructions). ALE may reject a claim for loss or damage from any other entity.

ALE or its agent must receive immediate notification of all noted visible damages and/or shortages discovered during the unloading of a rail car. Damage or shortages discovered other than between 8:00 a.m. and 5:00 p.m. CST Monday through Friday, are subject to reporting no later than twenty-four (24) hours following unloading from rail car, Saturdays, Sundays, and Holidays excluded. Concealed damage must be reported immediately upon discovery and made available for inspection at point of delivery.

Failure of the ALE to inspect the cargo will not constitute an admission of liability by ALE or alter the burden of proof on the claimant to establish the liability of ALE.

If the location of the loss, damage, or delay to the cargo is known to the claimant, the claim must be filed with that rail carrier on whose line the injury and/or loss occurred.

A claim must be in writing and must include documentation identifying the rail shipment, including the following information:

- Date of claim filing
- ALE's identification
- Car initial and number
- Shipper's/consignor's name, address, contact and telephone number
- Consignee's/receiver's name, address, contact and telephone number
- Commodity
- Loading date
- Shipping date
- Bill of Lading
- Invoice or Manufacturing Costs of commodity
- Freight Bill(s)
- Description of damage or loss and photographic evidence
- Demand for payment of a specific amount, with a statement of the formula or basis

- on which the damages are calculated, plus evidence in support of the calculation
- Additional information as requested by ALE to verify claim

ITEM 10 QUICK LIST OF ACCESSORIAL CHARGES

Here is a convenient list of the most common, but not all, charges established in these Terms and Conditions:

CHARGE ITEM	RATE	UOM
Car Damages caused from Loading/Unloading (in addition to actual repair costs)	\$1,000.00	per car
Car Hold Fee	\$150.00	per day, per car
Cars Interchanged in Error	\$500.00	per car
Cars Non-Compliant with Dangerous Goods/Hazardous Materials	\$1,000.00	per car
Cherry Picking – Non-hazardous Materials	\$450.00	per car
Cherry Picking – Hazardous Materials	\$550.00	per car
Delay of Train	\$300.00	per hour
Demurrage Charges – non-refrigerated cars	\$35.00 \$65.00 \$95.00	per car per day Days 1 to 4 per car per day Days 5 to 6 per car per day Day 7 and beyond
Demurrage Charges – refrigerated cars	\$250.00	per car per day
Diversion	\$500.00	per car
Empty Cars Ordered and Not Used	\$500.00	per car
Freight Refused or Returned	\$1,000.00	per car
Holding of Unit Trains	\$100,000.00	per Unit Train
Idler or Buffer Car	\$1,000.00	per idler or buffer car
Improper Billing of Car	\$150.00	per car
Improperly Loaded Car	\$2,000.00	per car
Late Delivery of Shipping Instructions	\$300.00	per car
Manual Release or Shipment Entry	\$50.00	per car or Bill of Lading
Monthly Sidetrack Inspection	\$2,500.00	per month, per mile, per industry location
Non-Revenue Empty Car	\$550.00	minimum per car, or applicable freight rate
Overloaded Cars - Hazardous or Load Reduction Required	\$2,000.00	per car
Overloaded Cars - Non-hazardous or Load Reduction Not Required	\$2,000.00	per car
Reciprocal Switching (AGR, BNSF, CN, CSXT, NS)	\$550.00	per car

Recrewing	\$2,400.00	per occurrence
Release/Leaking of Hazardous Material	\$15,000.00	per car
Release/Leaking of Non-hazardous Material	\$2,000.00	per car
Setback – Railroad	\$450.00	per car
Special Freight Train Service	\$2,000.00	minimum for first 4 hours, \$475 each additional hour
Special Placement Request	\$25.00	Per car
Special Switching Service	\$2,000.00	minimum for first 4 hours, \$475 each additional hour
Storage	\$150.00	Per car per day
Strike Interference Demurrage	\$50.00	per day
Switching: intra-plant, intra-terminal, and inter-terminal for Non-hazardous Materials	\$200.00	per car
Switching: intra-plant, intra-terminal, and inter-terminal for Hazardous Materials	\$500.00	per car
Switching to/from Car Repair Facility	\$200.00	per car
Unsafe to Move Forward	\$3,000.00	per car

ITEM 12 HOLIDAY SCHEDULE

ALE 9100

Wherever reference is made to "holidays," it shall mean only the days listed below unless otherwise stated in a customer agreement:

1. New Year's Day - January 1 (See Note 1)
2. Mardi Gras – Date varies yearly
3. President's Day - Third Monday of February
4. Good Friday - Friday before Easter Sunday
5. Memorial Day - Last Monday of May
6. Independence Day - July 4 (See Note 1)
7. Labor Day - First Monday of September
8. Thanksgiving Day - Fourth Thursday of November
9. Day after Thanksgiving
10. Christmas Eve - December 24
11. Christmas Day - December 25 (See Note 1)
12. New Years Eve – December 31

Note 1 - When this date occurs on a Sunday, the following Monday will be observed as the holiday.

ITEM 13 LIST OF CHANGES

None.
