Mississippi Export Railroad Company ("MSE")
8100 Fuel Surcharge Tariff

(N) No Change – Reissued to update fuel surcharge table.

APPLICATION: This publication applies to:

(1) all regulated common carrier line haul freight rates existing or established by MSE on or after March 1, 2023; and

(2) all line haul freight rates and charges with respect to exempt traffic and line haul freight rates, charges in contracts, private price quotations or other pricing documents, that both reference this publication and are entered into or issued and effective on or after March 1, 2023.

The fuel surcharge is mileage based and calculated monthly, based on the Energy Information Administration (EIA) U.S. On-Highway Diesel Fuel (OHD), starting from a base rate of $2.30 US. – surcharge varies by $0.0060 for each $0.025 change in the price of OHD.

(Average OHD Price *less* $2.30 / 0.025)0.0060 = *fuel surcharge per mile*

In the event the average price per gallon of highway diesel fuel (as determined below, the "HDF Average Price) equals or exceeds $2.30 per gallon, the mileage-based fuel surcharge will apply to the line haul rates and charges described above. The fuel surcharge shall be applied to applicable shipments beginning the second month following the month the HDF average price calculation was based. (e.g., a fuel surcharge applied beginning January 1 would be based on November's HDF average price).

The HDF Average Price for a given calendar month is reported on the U.S. Energy Information Administration web site (www.eia.doe.gov) US average. Should the Energy Information Administration cease reporting the price of Retail On-Highway Diesel Fuel, Mississippi Export Railroad will employ a suitable substitute source of price or measure.
